DEPARTMENT OF BIOMEDICAL ENGINEERING

VISION OF THE DEPARTMENT

Department of Biomedical engineering is committed to produce Biomedical Engineers with ethical and social considerations and to foster their intellectual growth in multi-disciplinary fields for improving human condition and healthy nation building.

MISSION OF THE DEPARTMENT

- Providing technical knowledge through skilled innovative practices and experiments in ethical learning environment.
- Creating new knowledge and enabling technologies in devising simple and low cost methods for diagnosis and therapy at different medical fields through research and Developmental activities.
- Providing quality education and design activities in developing entrepreneurship qualities.

PROGRAM EDUCATIONAL OBJECTIVES (PEOs)

- PEO I** : The Graduates will excel in application of mathematics, basic sciences, and Biosciences to multidisciplinary projects.
- PEO II** : The Graduates will adapt to the contemporary technologies and support health care providers at various levels with effective communication and team work.
- PEO III** : The Graduates will develop optimum Biomedical Engineering solution with ethical commitment.
- PEO IV** : The Graduates will excel themselves to work as an Entrepreneur in Biomedical field.

PROGRAM SPECIFIC OUTCOMES (PSOs)

- PSO I** : **Development of innovative tools:** an ability to design innovative tools to analyze and diagnose various pathological disorders.
- PSO II** : **Medical Equipment maintenance and management:** an ability to develop strategies to address the challenges of medical equipment maintenance and hospital management.

DEPARTMENT OF BIOMEDICAL ENGINEERING

VISION OF THE DEPARTMENT

Department of Biomedical engineering is committed to produce Biomedical Engineers with ethical and social considerations and to foster their intellectual growth in multi-disciplinary fields for improving human condition and healthy nation building.

MISSION OF THE DEPARTMENT

- Providing technical knowledge through skilled innovative practices and experiments in ethical learning environment.
- Creating new knowledge and enabling technologies in devising simple and low cost methods for diagnosis and therapy at different medical fields through research and Developmental activities.
- Providing quality education and design activities in developing entrepreneurship qualities.

PROGRAM EDUCATIONAL OBJECTIVES (PEOs)

- PEO I** : The Graduates will excel in application of mathematics, basic sciences, and Biosciences to multidisciplinary projects.
- PEO II** : The Graduates will adapt to the contemporary technologies and support health care providers at various levels with effective communication and team work.
- PEO III** : The Graduates will develop optimum Biomedical Engineering solution with ethical commitment.
- PEO IV** : The Graduates will excel themselves to work as an Entrepreneur in Biomedical field.

PROGRAM SPECIFIC OUTCOMES (PSOs)

- PSO I** : **Development of innovative tools:** an ability to design innovative tools to analyze and diagnose various pathological disorders.
- PSO II** : **Medical Equipment maintenance and management:** an ability to develop strategies to address the challenges of medical equipment maintenance and hospital management.

DEPARTMENT OF BIOMEDICAL ENGINEERING

VISION OF THE DEPARTMENT

Department of Biomedical engineering is committed to produce Biomedical Engineers with ethical and social considerations and to foster their intellectual growth in multi-disciplinary fields for improving human condition and healthy nation building.

MISSION OF THE DEPARTMENT

- Providing technical knowledge through skilled innovative practices and experiments in ethical learning environment.
- Creating new knowledge and enabling technologies in devising simple and low cost methods for diagnosis and therapy at different medical fields through research and Developmental activities.
- Providing quality education and design activities in developing entrepreneurship qualities.

PROGRAM EDUCATIONAL OBJECTIVES (PEOs)

- PEO I** : The Graduates will excel in application of mathematics, basic sciences, and Biosciences to multidisciplinary projects.
- PEO II** : The Graduates will adapt to the contemporary technologies and support health care providers at various levels with effective communication and team work.
- PEO III** : The Graduates will develop optimum Biomedical Engineering solution with ethical commitment.
- PEO IV** : The Graduates will excel themselves to work as an Entrepreneur in Biomedical field.

PROGRAM SPECIFIC OUTCOMES (PSOs)

- PSO I** : **Development of innovative tools:** an ability to design innovative tools to analyze and diagnose various pathological disorders.
- PSO II** : **Medical Equipment maintenance and management:** an ability to develop strategies to address the challenges of medical equipment maintenance and hospital management.
